

Gallion Training & Adoption Timeline

Gallion delivers structured, role-based training mapped to real-world clinical and operational workflows—so teams adopt the system quickly, confidently, and without disruption.

Role-based training aligned to your workflows.

Roles

Circulator Nurses

- Intuitive, real-time interface aligned to OR workflows
- Faster documentation with minimal disruption in the OR

Vendors

- Clear, standardized bill-only submission process
- Reduced back-and-forth and faster turnaround

Supply Chain

- Accurate item capture and reconciliation
- Real-time visibility into usage and spend

Biller

- Cleaner data and improved bill-only accuracy for requisition/purchase order creation and charge capture.
- Reduced manual reconciliation and rework

Executives

- Enterprise-level visibility and analytics
- Confidence in data-driven decision-making

Pre-Go-Live

Planning & Alignment Weeks 1 - 4

- Role identification and workflow mapping
- Training plan by role and department
- Super-user and champion selection

Mid-Implementation

Role-Based Training Weeks 5 - 8

- Live, role-specific training sessions
- Workflow walk-throughs using real scenarios
- Hands-on scenario testing

Go-Live-Week

Active Support

- Tapered on-site and elbow support as stabilization milestones are achieved
- Daily check-in calls and/or virtual open-forum support during stabilization
- Rapid resolution of issues to maintain momentum and stability

Post-Go-Live

Optimization & Confidence Building

- Monthly, hour-long customer-driven Gallion resource call
- Asynchronous issue intake with on-demand phone and live support as needed
- Continued Gallion team collaboration and communication to support sustainable success and adoption

Training Modalities & Resources

Live virtual training tailored by role

On-demand video modules

Role-based user material

Office hours and asynchronous, anytime reporting available for ongoing support
